

INKMAKER NORTH AMERICA / DISTI KLEEN, INCORPORATED • 131 Prince Street, Suite 7F, New York, NY 10012
 Phone 704.948.1257 • Fax 212.202.4526 • e-mail Michael.Schmutzer@disti.net

If you need **The Right Color at The Right Time**, please complete and return the following questionnaire.

Use the shaded form fields to enter the information relevant to your application – best viewed in Print Layout

Component / Raw Material Information:

How many components from pails
 How many components from Totes
 How many components from other
 Describe other
 How many are base components
 Are your components Water Based Solvent Based Type of solvents used
 Highest component viscosity cP Lowest component viscosity cP units if not centipoise (cP)
 How many components require mixing during storage (i.e. dedicated air mixers) Do you require recirculation of the components Yes No
 How many components from drums
 How many components from fixed (i.e. fixed line solvent, water or bulk)
 How many spare dispense valves
 How many are colorants

Installation Site:

Explosion Proof / Hazardous Solvent Area Non-Explosion Proof / Safe Non-Hazardous Area
 Describe any special classification or approvals necessary
 Do you have compressed air available of at least 6 bar (85 PSI) Yes No The required volume is dependent on machine type
 Supply voltage required - 110 volt single phase 220 volt single phase other specify if other

Recipe / Formula Information:

Product type (i.e. solvent based flexographic ink)
 Average number of base components per recipe Average number of colorants per recipe
 Required dispensing accuracy for base components 1 gram Required dispensing accuracy for colorants 1 gram
 Smallest quantity of any component to be dispensed Largest quantity of any component to be dispensed

Dispensing Into	Volume gal	Packing Size inches	Production Capacity gal
Can / Small Container <input type="checkbox"/>	volume	size Ø x H	capacity / hour
Pail <input type="checkbox"/>	volume	size Ø x H	capacity / hour
Drum <input type="checkbox"/>	volume	size Ø x H	capacity / hour
Tote <input type="checkbox"/>	volume	size W x H	capacity / hour
Tank <input type="checkbox"/>	volume	size Ø x H	capacity / hour
Other <input type="checkbox"/>	volume	size Ø x H	capacity / hour

Options / Special Features:

Check all that apply - Do you require... a container feed conveyor , a container discharge conveyor , mixing of finished product , automatic container closure , thermal barcode/label printing , barcode reader , connection to spectrophotometer , software access across company network , interface with existing business software platform (i.e. SAP) , storage tanks for components , other special request, please describe
